

TOOL Indicator Development Checklist

- ↳ **Reflect local or national priorities and measure aspects of the target that are relevant to context**
- ↳ **Constructed from reliable and well-established data sources**
- ↳ **Possible to collect the data for the indicator on a regular basis over time**
- ↳ **Build as far as possible on existing data capture and processes, to keep additional burden low and help ensure sustainability of measurement**
- ↳ **Straightforward to interpret and easy to communicate to the public and civil society**
- ↳ **Preference given to outcome, rather than process or input, indicators and should measure outcomes as far as possible**
- ↳ **As consistent as possible with relevant international standards and guidance and follows internationally set terminology and definitions where possible**
